

2011 ANNUAL TRAVEL PROFILE

Pennsylvania's Great Lakes Region

Research Methodology

The research for this report was conducted by Longwoods International.

The results consist of:

- *Estimates of the domestic volume of overnight travel on a nationwide level.*
- *Estimates of the volume of overnight and day travel to Pennsylvania and its tourism regions.*
- *Characteristics and profile of overnight and day trips to the state and the individual tourism regions.*

The results are based on results from the Travel USA® annual survey of US travelers. Each quarter, a random cross-section of approximately 1 million panel members is sent an e-mail invitation to participate in the survey, or over 5 million annually.

For the 2011 travel year, this yielded: 207,014 trips for analysis nationally – 138,771 overnight trips and 68,243 day trips.
